## SPARKS

"Forge thy tongue on an anvil of truth, and what flies up, though it be but a spark, shall have weight."  
--Pindar  
Edna G. McDade

STARS GET IN THEIR EYES for Dolph Briscoe who says "I'm the only candidate in the race (for governor) who has an astrological chart where victory can be predicted on May 4 and again on June 1. The signs favor me in both cases."

Briscoe adds that the stars "are much more accurate than the polls that most of the candidates are taking for themselves" and that he "will have the people who believe in astrology on my side."

Twinkle, twinkle, little star . . . Let's see how accurate you are.

IF YOU'VE EVER BEEN CALLED A BIRD-BRAIN (join the club), here is some pertinent information, supplied free by the Texas Parks and Wildlife Department:

"A bird's two eyes often weigh more than its brain. The ostrich's eyes weigh more than twice the weight of its brain."

With corrective lenses, now, the proportions might vary adding to the brain-drain.

THE 4-H CREED includes these two precepts, from among others equally meaningful:

I believe in the training of my HEAD  
for the power it will give me  
to think, to plan and to reason.

I believe in the training of my HANDS  
for the dignity it will give me  
to be helpful, useful and skillful.

The boys and girls who were presented as 1967 award winners at the Medina County 4-H banquet last week made their adult guests aware of how faithfully they practice their creed.

PRAIRIE CHICKENS might not be anything new to you but it was a genuine delight to me when I saw my first one on a weekend trip to the bay coast area near Austwell last week. A small brood (or whatever assembly-noun applies) has established nesting quarters in the grain fields in that area and the landowners take great pride in showing them off -- and in helping see to it that they are protected. The Aransas County birds are of the greater prairie chicken species, found from the Canadian prairies to Texas and now extinct in North Texas, according to Roger Tory Peterson's Field Guide to the Birds of Texas, published for the (former) Texas Game & Fish Commission, now the Parks & Wildlife Department.

LAST YEAR (1967), the only traffic deathless day in Texas was Monday, March 13. There were 56 days with 15 or more deaths.

This is only one of the statistical traffic highlights from the comprehensive report on Motor Vehicle Traffic Accidents, 1967 issued by the Texas Department of Public Safety whose highway safety action program has these worthy aims:

Develop adequate, uniform accident reporting systems in all States and communities; promote analysis of records and use of data by all Government agencies and organizations concerned; continue special studies of traffic congestion and accident causes; and provide State assistance to communities through periodic summaries and counsel.

HONDO and DEVINE are the two cities in Medina County among the 266 listed where Texas highway patrolmen are stationed.

By observing traffic laws and exercising every safety precaution, drivers can help our highway patrolmen make travel safer for everyone.

TEXAS NOW HAS some 52 federal recreation areas which the \$7 Golden Eagle Passport will allow the holder, and anyone in his car, to visit any number of times. Robert G. Maerman, deputy director for TPWD, says it is the "best bargain in outdoor recreation today". Some sports writers have been plainspoken in their opposition but the GE passport might well be here to stay--price subject to change without notice.

YAWNS WILL BE COMING UP LIKE THUNDER next week. Time again, the calendar (and alarm clocks) say, to return to DST, which means roll out an hour earlier and head for home an hour earlier, too.

## COUNTY WAR VETERANS RECEIVE \$597,000

Some idea of the amount of money now being spent annually to aid Medina County war veterans and their families may be gleaned from government sources.

They show that expenditures in the form of cash benefits and services locally are at an all-time high.

During the past fiscal year, an estimated \$597,000 in pen-

sions, compensation, grants and other benefits went to local veterans or their beneficiaries.

The figure was derived from detailed data for each state, released by the Veterans Administration in its annual report, covering the past fiscal year.

Sharing in the distribution were some 370 former servicemen and the relatives of others who have died.

Of the \$597,000 that Medina County veterans and their dependents received in 1967, about \$377,000 of it represented compensation or pension benefits, including retirement pay.

Another \$69,000 was in dividends and indemnity payments in connection with G.I. insurance policies.

Administrative costs and miscellaneous benefits accounted for the remainder.

## Rec Program Needs Staff

Applications for posts as director and two assistants for the summer recreation program here will be accepted until May 6. The project will run from June 3 to July 26.

Persons interested may contact board members, E. L. Abbott, Mrs. Reno Stanga, Mrs. Fred Bader, John McAnelly or Mrs. James Richter.

## New Residents Vote By Apr. 30

County Clerk Henry Schulte has reminded new residents of Medina County that they must vote in the county clerk's office by Tuesday, April 30, if they wish to participate in either the Democratic primary or the Republican primary to be held on May 4.

Any person who has lived in the county less than six months (who became a resident after November 3, 1967) must vote in the clerk's office during the period of April 15-April 30. He must be a registered voter either in this county or in the county of his former residence and must have lived in the state for a year. He will be required to present his registration certificate or to make an affidavit of its loss when he applies for a ballot.

A voter with less than six months' residence in the county will be able to vote on all statewide offices and on the referendum propositions on the primary ballot, and will also be able to vote on district offices for districts in which he has six months' residence preceding the election, but he will not be permitted to vote in local races.

## Car Tag Sales Show Increase

Sales of motor vehicle licenses through March 31 in Medina County show an increase of 261 and an increase of \$6,081.12 in Medina County's share of the fees.

Alfred Rohrbach, tax assessor-collector, reports 9,083 total licenses issued with the county's share of the fees \$124,170.45.

The 1967 figures showed sales of 8,822 and the county's share of fees, \$118,089.33.

## INJUNCTION AFFECTS SCHOOL ANNEXATION

A hearing has been set for 10 a.m. Thursday, May 2, on a temporary injunction and restraining order against annexation of the Yancey Independent School District into the Hondo Independent School District.

The injunction and restraining order were issued by Dist. Judge Solomon Casseb Jr. of San Antonio following the annexation action last week by the Medina and Frio County school boards. Judge Casseb issued the orders against the two county school boards at the request of the Yancey school district board of trustees.

Annexation of the Yancey

District into the Hondo district was ordered by the two county boards after they received petitions from residents of the Yancey district requesting the action.

Petitioners requesting the annexation were Dr. R. T. Duty, Herman Woerdell, W. B. Melton, Ivan Stokoe, Harrison Wilson, and Howard Wiemers, all residents of the Yancey district.

The action was taken under a provision of the law that gives county boards authority to annex school districts of 250 or fewer students into larger districts without action or permission of either district.

At the present time there are approximately 145 pupils in the Yancey schools, including about 40 in high school.

The action of the county boards was effective immediately, but is now being held in abeyance by the court orders.

On April 6 voters in the Yancey district approved a \$250,000 improvement bond issue by a margin of six votes. It is believed that the annexation order invalidates this bond issue.

J. G. Barry, superintendent of the Hondo Independent School District, said that the Hondo district trustees did not request the annexation, but were willing to abide by the decision of the county boards. The court orders do not cite the Hondo district.

## SCREWWORMS ON INCREASE

Livestock producers in Medina County should be on the alert for screwworm cases. Glenn Bragg, county agricultural agent says, "We are now in a critical period with cases on the upswing and conditions being ideal."

"On April 23, 36 cases had been confirmed at the Mission Laboratory. Cases were reported as far north as LaSalle County."

Bragg urges livestock owners to check their animals on a day-to-day basis and submit all suspected screwworm cases for positive identification.

It is necessary that early screwworm cases be reported if a screwworm outbreak is to be prevented. Livestock owners who need vials for the larvae samples may contact the County Agent's office at the courthouse.

## S. Army Drive Opens Tuesday

The annual appeal for support of the Hondo Service Unit Committee and the Salvation Army State Services will get under way at a kickoff luncheon at the Frontier Cafe Tuesday noon, April 30. Bill Crow is the Service Unit chairman.

Campaign chairman is the Rev. James M. Reid, pastor of the First Baptist Church. He will have seven captains and 35 workers who will make the solicitation among the business and professional community. There will be no house-to-house canvass.

The employee division will contact employees at their place of employment, Rev. Reid said.

Proceeds from the campaign are used to finance the local welfare program and the state welfare and youth service of the Salvation Army.

## Devine To Get Federal Grant

County Judge Jim Duncan said this week that he had received a telegram from Congressman Abraham Kazen, Jr., advising approval of a grant sum of \$51,213 to be used for improvements to the municipal airport at Devine.

## EOD Grant OK'd For County

Commenting on the announcement that Medina County is among the 14 counties included in an Economic Development Administration grant of \$45,300, Judge Jim Duncan said:

"Plans for a new public building are now in the making. We have been working on this project a long time but I am not ready to make a full announcement yet. Just say that Medina County is making headway right along. More later."

## STORY HOUR AT LIBRARY

A story hour will be given at the Hondo Public Library by Mrs. Lucy Wilson on Saturday, April 27, from 10 a.m. to 11 a.m.

This will be for children from ages 4 to 6 and is offered in keeping with National Library Week.

Strong winds, accompanied by barrages of hail, followed a hit-and-miss pattern as they swooped down on sections near here last weekend and early Tuesday morning.

The Anvil Herald rain map covers the rainfall over surrounding communities. The Taylor-Chapman service reports an additional .65 in downtown Hondo Tuesday morning, .75 at Rancho Chico and varying amounts up to one inch in the D' Hanis area. The Settlement received 2.30 inches of rain and some hail.

Reporting from Yancey, Mrs. Harrison Wilson said that section had received 4 inches of rain since Saturday afternoon's storm which hit from the southwest. Wilbur Wilson said 3 inches fell and that small hail covered most of his acreage. Lucian Ward and R. M. Jones reported about .50 of an inch. Mrs. Wilson said that no severe damage was reported.

Adolph Hutzler said the Biry section received 1.40 and 2.20 inches. He said the Leo Schmidt home was struck by lightning with minor damage except to the electrical circuits.

The Frederick Bohmfalks, whose farm is five miles southwest of Hondo and west of Hwy 173 lost all their maize from the weekend storms. Also suffering crop losses, amounts not reported, were Robert Clements and Leslie Muennink.

Bruno Schweers said that three inches of rain fell in less than an hour on his farm and wiped out all the oats and corn which would require replanting. Wilbur Lindeburg was reported to have lost about 100 acres in corn and more in maize. Edgar Stiegler lost about 150 acres in oats.

Broomcorn which had a good start in some sections was a total loss but no exact estimates were available.

(see Hail, Pg. 9)

## Song Service At Yancey Sun.

The Yancey community will have their regular quarterly Family Night and Song Service Sunday evening, April 28. A covered dish supper will be served at 6:30 p.m. and the Song Service will begin at 7:30 in the Yancey Methodist Church.

All surrounding communities are urged to attend and to share in the evening's program.

"MM-M, GOOD!" said little Iris Garcia in the foreground. Many children attended the Hondo Public Library's open house Monday evening. All were eagerly reading books or "seeing the pictures" as Iris explained. In the line, if not completely visible, are (L-R) Naches Garcia, Lucy Garcia, Sonia de la Toro, Linda Cortina, Sandy Garcia, Debrah Lindeburg, Eva Cortina and Anna Martinez.

## How To Tell 'em Apart

If it's getting hard to tell the men from the women, but here are some suggestions that might be helpful:

If it smiles when you address it as 'Ma'am', it is feminine. If it grunts and growls, it is masculine.

If it strikes a kitchen match on the seat of its trousers, it's a him. If it waits for you to light its cigarette, it's a her.

If it takes off its shoes at the movies, it's a woman. If it gets down on its hands and knees and starts looking for the shoes, it's a man.

Does it do its fair share of pushing while going through a revolving door? It's a gentleman for sure. Does it leap in front of you and grab the taxi you just flagged down? It's a lady — every time.

If it brags about the steaks it cooked in the backyard, it's a man. If it dimples when you praise the roast it cooks indoors, it's a woman.

If it wears a red ribbon in its hair, it's a lass. If it combs its hair down over its eyes — well, there you've got me.

If it says it has given you the best years of its life — "and for what, I ask you?" — it's a wife. If it asks for lunch money before going to work, it's a husband.

If two go to the supermarket, the one that pushes the loaded cart is the mister. The missus is the one that holds up the line at the check-out counter as she fumbles through the wilderness of her purse.

If it likes to dine by candlelight because this is romantic, it's the mama bear. If it grumbles, "I can't see what I'm eating", it's the papa bear.

If you open the door to it and it tries to sell you a box of cookies, it's a Girl Scout. If it helps old ladies across the street, it's a Boy Scout.

Does it bring its paycheck home in its mouth? It's a man. Does it think money grows on trees? It's a woman.

If it writes newspaper columns like this, it's a him. If it reads columns such as this and loses its temper, it's a her.

Now, then, any questions?

## PRINT THAT, PLEASE

All newspaper people take a lot of punishment about the content of their newspaper. Everyone wants something different in print. Just for fun, a Montanta editor recently ran a 'poll' of his readers, and these are the subjects the readers said they would like to see printed most often:

1. My name.
2. A front page article showing how crooked the city government is most of the time.
3. My wife's name.
4. A feature article showing 25 ways on how to cheat on income tax forms.
5. My kids' names.
6. A local new item about the affair my neighbor is having.
7. A classified ad offering a new home for sale for \$4,000.
8. More news about lawbreakers.
9. Less news about lawbreakers. I was picked up last night and I should not have to pay a fine.

10. An editorial condemning high school teachers for being too liberal with "F's".

11. A wedding picture of the groom instead of the bride when he is more handsome than she is pretty.

12. A sports picture of me when I bowled 183.

13. More advertisements on things that merchants are giving away.

14. A front page spread about the deadbeat who lives across the street from me who just had his car repossessed.

15. A front page picture of my neighbor being hauled out of the bar by his wife.

16. Forget the one about the car, I just got word from the finance company that they're coming after my car.

17. More letters to the editor naming the crooks we have in town.

Editor  
Anvil Herald:

The winter months are past and spring has begun bringing along good prospects for a prosperous year.

### HERE IN HONDO

Lt. and Mrs. Harold Hollister and Mrs. Hollister's mother, Mrs. Jimmie Duncan, all from Mineral Wells, spent the weekend with Judge and Mrs. James Duncan. They returned home by way of San Antonio and the HemisFair.

Our neighbor, Mr. W. S. Richter, handed me a sample of flax that was grown by his tenant on his farm near Pleasanton. The stalks were fully two feet tall and just out of bloom going into pods to seed. With the splendid rains of last week, it should make a bumper crop.

I asked him how many bushels to the acre it would make. He said that he did not know, but that it was a better money crop than other grain crops, such as milo etc.

Next week I will send a column of local news,

### Over Farm Photos By Satellite

Editor's note: The Old Philosopher on his Johnson grass farm seems a little riled up this week, but he'll get over it. It takes too much effort to stay riled up.

Dear editor: I wasn't doing anything but taking a slow Spring walk through my pasture out here and considering how lucky man is that changes in the seasons aren't left up to a government negotiating committee when I stumbled over a copy of the Sunday issue of a big city paper and since it was as good a place as any to sit down I sat down and looked it over. I'm not sure I should have.

Over an inside page I ran across an article that reported that scientists are working on an orbiting satellite that can take such accurate pictures of the earth's surface, so sharp and precise, that you can look at them and examine a man's whole farm in a glance. Even tell what's growing, how well it's doing and whether insects are bothering it.

This is the type of progress worth leading a march against, although generally speaking the sit-down strike is more to my nature, if you can do it at home in the shade.

The last thing I want is somebody taking photographs of my farm showing in detail the condition of my crops. It'd be like sending a satellite over a bank photographing the state of everybody's checking account.

The amount of Johnson grass and weeds I have on this farm comes under the head of my business. What you can see from the road looking over into it is all you're entitled to know about it, and if that part doesn't suit you, here's a hoe. I can see the time come

when the bureaucrats would hit on the idea of photographing everybody's farm once a week, say on Friday, and on Monday you'd get an eight-page letter of instructions telling you what you're doing wrong.

"Dear J.A.," it would read, "We have this week's photograph of your farm and we need further clarification of the current status of your farming system. On the north or back side of your place, we can't tell whether you're growing broom corn in Johnson grass or Johnson grass in broom corn. Please advise on Form 75948."

Since the answer to this letter would not be usable in The Anvil Herald, please use your influence to discourage any further development of this photographing-by-satellite business. If not stopped, they might get around to photographing your desk.

Yours faithfully,  
J.A.

## F. Kauffmann Adds To Herd

Frank Kauffmann, a Rio Medina 4-H Club member, recently sold his first registered yearling polled Hereford bull. The animal was the result of a 4-H beef project started five years ago, with the help of County Agent, C. B. Gaston, adult leaders and the Schuchart Brothers who helped Frank select the foundation heifers from their herd.

During his years in 4-H Club work, Frank has shown three of these heifers in the Medina County Jr. Livestock Show and in the San Antonio shows. Presently, he has eight head of registered stock and plans to increase his herd gradually.

The Beef Cattle project is just one of the many 4-H projects designed to give members experience and training for future careers.

### New Law Curbs Pandering Ads

Mail patrons offended by pandering advertisements can now take steps to curb such mail, says Postmaster John H. Muennink, who announced plans for administering a new law which gives each family the right to decide that an ad is "erotically arousing or sexually provocative."

When an advertisement sent through the mails is offensive on these grounds, a postal patron can now ask the post office to direct the mailer to send no more mail to him and to remove immediately the patron's name from all mailing lists he owns, controls or rents.

To assist patrons, the Post Office Department has published a brief pamphlet -- How You Can Curb Pandering Advertisements -- which is now available at the Hondo Post Office. In addition to explaining how the law works, the pocket-size leaflet contains a form letter one can use when sending his complaint to the post office.

Postmaster Muennink said: "This new law should give some protection to American families offended by advertisements they believe to be morally harmful, particularly to their children."

Last year the Post Office Department received some 140,000 complaints from those offended by pandering advertisements.

### Scout Camp Opens June 2

The Alamo Area Council, Boy Scouts of America, appeared headed for a record camping season this summer, with 150 troops already signed for dates and sites for the nine-week program.

This total is only 20 troops less than the total 170 that attended camp during the entire 1967 season when the record was set at 3,178 Scouts.

Col. William C. Pugh, camping chairman for the 15-county council, pointed to this registration as the urged Scout leaders to register as soon as possible for the 1968 season.

The two facilities operated by the council are in Kerr County -- Indian Creek Scout at Ingram; and Camp Friedrich, in Bear Creek Scout Reservation, west of Hunt. The season opens with the week of June 28 and closes with the week of July 28-Aug. 3.

He is the son of Mr. and Mrs. Lee D. Williams.

### SALT PRESENTS "MARY, MARY", MAY 10

Julia Meade, glamorous Broadway actress and TV star, will appear in person in the next San Antonio Little Theatre play, "Mary, Mary" opening May 10 at the San Pedro Playhouse. SALT presented the same play in 1966 to sellout crowds... a captivating comedy with snappy dialogue and hilarious wit tuned to everyone's glee-box.

Julia Meade will play the title role as Mary in Jean Kerr's hit comedy. Mary, an about-to-be-ex-wife, has more sense of humor than good sense when it comes to holding a husband. Bob Jutson plays the harried ego-injured husband who already has plans to marry a food-faddist heiress whom he prizes because she has no sense of humor at all.

Nightly performances of "Mary, Mary" will be May 10 to May 25, except Mondays, with 2:30 matinees May 18 and 25. Tickets are \$4.50 for adults and \$2.50 for students and E-1 to E-5 military. The ticket office will open to the public May 1. Mail orders are handled promptly: P.O. Box 12356, San Antonio, Texas, 78212.
